Ch. Hill View Points get a makeover

Experience the panoramic view of heritage city through hi-tech binoculars this Dasara

Mysuru, Sept. 14 (MTY& BCT) - Here is some good news for those who like to watch the breathtaking views of the heritage city from Chamundi Hill. The District Administration is constructing special protruding platforms at two View Points on the way to the Hill-top and is installing high-definition binoculars for viewers to admire the city from up above to their heart's content.

And the good news is that the works on the View Points are being undertaken on a war-footing and will be completed before Dasara begins. The vision of the city from these View Points, aided by binoculars, will be spectacular, as it gives a bird's eye view of the entire city.

Works on special platform in progress at one of the View Points atop Chamundi Hill.

Speaking to *Star of Mysore* this morning, Deputy Commissioner D. Randeep, who is also the Dasara Special Officer, said that the total project cost to set up the View Points is Rs. 40 lakh. While one View Point is being set up at the junction between Nandi Statue road and Temple road, the other View Point is being readied near the WELCOME signs (both in English and Kannada) on the same stretch. The binoculars that will be installed at the View Points will be the most advanced and high-definition types. They have been procured through global tenders and each binocular costs Rs. 15 lakh. While one View Point gives a glimpse of Mysore Palace and city, the other gives a panoramic view of places opposite the Race Course and other important landmarks.

The View Points are being constructed as per international standards following the models of such platforms at other spots. Over 10 to 15 people can stand on the platform. Vertical and horizontal iron beams have been laid supporting each other and are being welded to ensure that they are sturdy and can withstand pressure.

The vertical and horizontal beams have been inserted up to 8-feet below the ground and a 5 to 10 mm iron-and-concrete sheet will be laid on top of the beams. As a safety measure, the platforms will have railings.

Concrete steps are being laid for the tourists to reach the View Point platforms which will be enclosed with a room-like structure with doors. **The timings of viewing will be from 10 am to 5 pm.** The works on the platforms are being taken up by Nirmithi Kendra.

White House replica to attract Dasara Exhibition visitors

Mysuru, Sept. 14 (RKB& VNS)- For those who have not visited the White House, the official residence of the President of United States of America, here is a chance to catch a glimpse of the iconic structure.

This year, the Dasara Exhibition, which opens on Sept. 21, will feature the replica of White House located in Washington DC, USA, as its main attraction. The Karnataka Exhibition Authority (KEA) has allocated 2 acres of land for the purpose. The tender for this year's Dasara Exhibition has been awarded Fun World and Resorts for Rs. 6.66 crore.

The works on White House replica has already begun and is expected to be completed by Sept. 21. The White House will be constructed on a site measuring 150x250 sqft. Earlier, it was mentioned that the replica of Disneyland would be the main attraction but later the tender holder decided to construct the White House replica.

Tourism-Technology: Twin trouble

Having brought down full-grown trees in numbers of astronomical proportions, particularly in Karnataka these past few months, a dramatic resurgence in greening the land is taking place in some pockets, including Mysuru. Planting of saplings and tossing *seed balls* at numerous open spaces, with the administration joining hands with voluntary groups, marked by the usual photo-shoot feature have been faithfully reported upon by the alert media. We may never hear or read in the dailies about the care bestowed on the saplings and seeds and what proportion of them survived to make the environs green like before. Our ancestors who have departed should be feeling gratified for the good turn by the current generation of the land's people. One wishes that trees shall not be chopped down in future for whatever justification.

The country's botanists have a great opportunity to become visible among the otherwise preoccupied masses laying bare all they need to know about the plants, an unsurpassable bounty of nature. In fact, a columnist of this daily, a botanist himself, has already been enlightening the public presenting valuable information that may generate deep interest in the youth to propagate plants and experience the thrill and joy to be amidst lush green in their own lifetime.

Kodagu region provides an eminent example of *first* emerging as a must-visit destination for people from other regions of the land as well as countries across the world and *then* take the brunt of the unregulated human load, leaving behind mountains of debris, familiar to all. Increased money power and more people in travel mode like never before, reaching their destinations in comfort of air travel, communication with wide outreach and a plethora of factors all owe it to *technology*. Every region across the land is leaving no stone unturned in luring people to come to its attractive spots and enjoy, the initiative having come to be perceived with pride as *tourism*.

***Technology* has turned out to be a double-edged sword, resulting in making life of people more comfortable, including *tourism* to be more exciting and enjoyable, while exerting unprecedented pressure on resources essential to life (water and clean air). Mysuru is heading to witness later this month the *twin-trouble* that *technology* and *tourism* create to city's residents.**

EDITOR'S BOTTOMLINE

It is generally accepted that travel broadens the mind and widens the horizons. Going by the advice to India-bound travellers from the new Tourism Minister K.J. Alphons, it can also induce constipation, hunger and belly-aches, among other conditions. In a moment of great insight that does justice to the portfolio he has been given, the Minister has suggested that since beef is becoming a no-no in 'modern' India, foreigners could eat their fill of red meat in their home country before coming to India. The Minister's advice deserves scrutiny considering travel and tourism is the world's cash cow. Because our air and water is so polluted, visitors can finish their breathing, hydration, bathing, etc., before coming.

"Cotton Tears"

Madhya Pradesh: An 11-year-old from the Indian State of Madhya Pradesh has allegedly been popping out 35 to 40 small white pebbles of what looks like cotton from her eyes, every day for over two weeks.

Manasi, a sixth-grader from the village of Pachkhura, apparently started producing the bizarre white "cotton tears" on Aug. 25, and her father, as well as the locals are convinced that she is possessed by a ghost. And they started avoiding the girl and her family ever since. Her parents are so superstitious that they have yet to consult an ophthalmologist. The local doctor came to see her, recommend her to consult a professional eye doctor. Dr. Navneet Saxena, Dean and ophthalmologist of Medical College in Jabalpur, said that it could be just an allergic reaction that sometimes manifests itself as white discharge and thread coming out of the eye, while Dr. Pawan Setak said that the condition is likely caused by a Vitamin D deficiency. He added that malnourished children sometimes exhibit a white discharge from the corners of their eyes, which look like cotton.

Hermes paper weights with leather straps

Paris: Paying $840 for an original Hermes item seems like a great deal, but in this particular case we're talking about a paperweight consisting of a rock and a calf leather strap. How do you even sell something like that?

Well, the French luxury brand found a way – they are marketing the "galet pebbles" (rocks) as unique, which means no one else in the world has the exact same item. The odds of finding another with the exact same shape and pattern are probably astronomical, and you don't have to pay anything for that.

The Galet Paperweight is part of Hermes' "petit h" line, which aims to use leftover materials from the brand's bags, accessories, shoes and silks to create small trinkets that can be paired with its main products. In this case, the leftover would be the leather strap. I like the idea of recycling scraps that would otherwise be thrown away, but charging over $800 for something that should technically be free?

Check stray dog menace in K.C. Layout, Saraswathipuram

Sir,

Morning walkers in and around K.C. Layout and Siddartha Layout are anxious and fear while taking a walk via K.C. Layout Main Road, especially the cross road of K.C. Layout and the road towards Helipad as more than half a dozen street dogs are present. We request the MCC authorities to address the issue at the earliest as already one person on a vehicle was attacked by the dogs last week.

II

Sir,

A pack of street dogs have free access to Javaregowda Park in Saraswathipuram. They roam around freely in children's play area, especially in the evening, when the Park is mostly frequented by evening walkers and playful kids.

Today (Sept.9) a small boy was bitten by these dogs at around 7.10 pm and the anxious parents took him to a doctor.

When I looked around for security guard, none was found in the vicinity.

In view of the recent brutal Rottweiler attack on a kid, I request the City Corporation authorities to safeguard citizens from these menacing street dogs.

25 District Headquarters to get Outer Ring Roads

Government sets aside Rs. 275 crore for study, survey; To submit detailed project report in five years

Bengaluru, Sept. 14- The State Cabinet yesterday gave its approval for the development of roads in and around Bengaluru and at district headquarters to ease traffic congestion. Along with this, it has also constituted an Empowered Committee for development of Ring Roads around 25 cities, mainly district headquarters, under the Town Planning Scheme.

Briefing reporters after the meeting, Law Minister T. B. Jayachandra said that the roads will be developed by the Karnataka Road Development Corporation Ltd. (KRDCL) at an estimated cost of Rs. 2,095 crore.

The Government has set aside Rs. 275 crore for taking up a study, survey and give a detailed project report on the construction of 25 ring roads around district headquarters.

The Committee, headed by Additional Chief Secretary to the Urban Development Department, has been given a time-frame of five years to complete the task, he said.

The Ring Roads will be constructed on the outskirts of cities including Madikeri, Chamarajanagar, Ramanagaram, Hassan, Mandya and Chitradurga.

File photo

Ring Roads will be constructed on the outskirts of cities including Madikeri, Chamarajanagar, Ramanagaram, Hassan, Mandya and Chitradurga.

A proposal to bring all urban local bodies under one uniform law was also approved and the Cabinet has requested the National Law School of India University to study the present Karnataka Municipal Act, 1964 and Karnataka Municipal Corporation Act, 1974 to draft a uniform Act, Jayachandra said.

"The proposal is to bring all Urban Local Bodies under one enactment. Urban experts have pointed out that the multiplicity of Legislation sometimes results in overlap of procedures, delays in plan sanctions and many of the clauses in the existing enactments are redundant and need to be structured," Jayachandra said.

The Cabinet has approved the Karnataka Forest Department Services (Recruitment of meritorious sportspersons in the category of Deputy Range Forest Officers, Forest Watchers) Special Rules, 2017 for recruiting national and international sportspersons for 'C' and 'D' category groups.

The Forest Department has decided to fill 125 posts under the sports category. As of today, 54 vacancies existed under the category, Jayachandra said. To make Bengaluru the electric vehicle capital of India, the Cabinet approved a new 'electric vehicle and energy storage policy' to reduce pollution and promote healthy environment.

Court directs inclusion of Sunil Bose as Accused No. 1 in graft case

Mysuru, Sept. 14- In huge embarrassment for PWD and Mysuru District Minister, Dr. H.C. Mahadevappa, the Third Additional District and Sessions Court yesterday passed an order directing the authorities concerned to name his son, Sunil Bose as accused number 1 in a graft case.

Sunil Bose

Sunil Bose is accused in the case of aiding and abetting Mines and Geology Department Officials to take bribe in an illegal sand transportation case. The Court also ordered Sunil Bose to be present before it on September 26.

The order has come as a jolt for Dr. Mahadevappa who is preparing to field his son as a candidate in the 2018 Assembly elections.

The case pertains to one Basavaraj, who was given a Government tender for sand mining in T. Narasipur taluk (Dr. Mahadevappa's constituency). He later filed a Lokayukta case against an officer of Department of Mines and Geology, Alphonse, for allegedly demanding a bribe of Rs. 1 lakh for permitting the transport of sand.

"During the Lokayukta raid on March 27, 2010, Alphonse alleged that he had given the money to Sunil Bose as bribe for the permit. But the Lokayukta Police dropped Sunil Bose's name from the chargesheet," said Basavaraj, who filed a petition under section 191 of the Cr.PC in Court to include the names of Sunil Bose and Raju as accused in the chargesheet before the Third Additional District and Sessions Court in Mysuru. The Court ordered the inclusion of Bose's name in the chargesheet along with other accused Raju and Alphonse.

Sunil Bose, however, had approached High Court questioning the order. The High Court had quashed the lower Court order but directed to continue with the proceedings. As the Session Court found strong evidence against Bose, it made him an accused as he had threatened the witnesses.

500 Indira Canteens across State from Nov. 1

DC Office premises, District Hospitals, Government Colleges, Court complexes to serve food

Bengaluru, Sept. 14 (KMS)- The Siddharamaiah Government is opening 500 Indira Canteens, across the State, as a Rajyotsava gift to the people, from November 1. The canteens will be opened in all District Offices, hospitals, government colleges, court complexes and in other important places.

The State's highly ambitious programme would cost the State exchequer Rs. 89 lakh a day. On August 16, 2017, the Chief Minister had inaugurated 101 Indira Canteens in Bengaluru. These canteens are on the lines of Amma canteens launched by late Chief Minister J. Jayalalithaa in Tamil Nadu.

Indira Canteen will serve breakfast, lunch and dinner. While breakfast will cost Rs. 5, lunch and dinner will be served at Rs. 10 each. The canteens will be opened in places where there is sufficient space like DC offices. Hence, no new land is required to be acquired for this purpose. Also in most of these places, already canteens are functioning. The Government is just going to provide more basic facilities and increase the standards. A letter to this effect has been sent to the District Administration.

People, who come for daily work and on official work, the poor, students and patients who visit the hospitals and those visiting courts will all be benefited by this gesture as they will get clean food at affordable cost from Nov. 1. Since the Indira Canteens launched in Bengaluru is running successfully, the Government decided to extend it to other parts of the State.

According to sources in the Bruhat Bengaluru Mahanagara Palike (BBMP), the bidder quoted Rs. 57 per day for breakfast, lunch and dinner. The consumer would be paying Rs. 25 for the same (Rs. 5 for breakfast + Rs. 10 for lunch + Rs. 10 for dinner). The remaining Rs. 32 will be borne by the Government. By the next Assembly elections, the facility will be extended to all taluk centres. Later, it will spread to all the 750 hoblis in the State.

Interestingly, the menu will vary according to the region. One can eat jolada rotti with curry for Rs. 10 in north Karnataka, while in old Mysuru region there will be serving of one big ragi mudde with sambar for Rs. 10 and in coastal Karnataka Neer Dosa for Rs. 5 for two pieces. Breakfast would vary depending on the region.

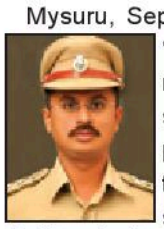
Going by the experience in Bengaluru, people cutting across the class divide rush to the canteens. There are lot of hiccups and one only hopes that by the time the canteens are set up across the State, the glitches will be removed.

Free food for labourers

The Labour Department has decided to serve free food to the labourers from Nov. 1.

Such canteens will be opened in industrial layouts and the expenses for serving food will be borne by the Labour Department and the District Industries Centre, which will jointly implement the programme.

'Traffic rules are for your safety, follow them'



Dr. Vikram Amathe

Mysuru, Sept. 14 (RK&KS)- "Traffic rules are made for your safety and for public protection which one should always follow to prevent accidents," said DCP (Crime and Traffic) Dr. Vikram V. Amathe.

Replying to questions pertaining to management of heavy traffic density and tourists during Dasara put forth by *SOM,* he said that every two-wheeler rider must carry his valid DL before hopping on his bike or scooter, wear helmet, should not speak on cell phones while riding, should not drink and drive, should not jump signals, should follow lane discipline etc. which would not only help the motorist to ride safely but is also helpful to the public.

Suggesting two-wheeler riders to ride slowly on the left side of the road and ride cautiously while riding on the right side keeping in mind the speed limit, he asked the motorists to park their vehicles in the designated parking spaces and not to park vehicles haphazardly on the roads which hinders the smooth flow of traffic which may result in fatalities.

He warned the motorists of taking stringent action if they do not follow traffic rules.

Account lapses at MUDA

Legislature Audit Committee gives one month time to clarify

Mysuru, Sept. 14 (US&SBD)- The Audit Committee of Karnataka Legislature visited Mysore Urban Development Authority (MUDA) here yesterday and scrutinised the records.

The Committee Chairman and MLA S.R. Mahesh sought a comprehensive report on utilisation of funds, development of lakes, employees welfare fund and bank guarantees. He pointed out that MUDA had not furnished details of utilisation of funds worth Rs. 359 crore from 1961 to 2015. He further said that MUDA had collected Rs. 50 crore through lake cess but had not developed even a single lake.

Referring to collection of Rs. 7 crore towards Employees Welfare Fund, Mahesh alleged that the amount had been spent on some other work thus flouting norms and ethics. He warned of recovering money from the MUDA Engineers concerned if the left over money in tendered contracts was not recovered from the assigned contractors especially when the amount to be recovered was a whopping Rs. 29 crore.

It is learnt that the Committee has given a time of one month to furnish all the details.

Dasara Kavigoshti Sub-Committee Deputy Special Officer and DDPI Dr. B.K.S. Vardhan presiding over the meeting of the Sub-Committee at the DC's office yesterday.

Presiding over the meeting, Sub-Committee Deputy Special Officer and DDPI Dr. B.K.S. Vardhan said that the Committee would make sure that the poems that are recited during the Kavigoshti are of good quality and do not create any controversy.

Mysuru, Sept. 14 (RK&KS)- A businessman has lodged a complaint against four persons at Devaraja Police Station for barging into his shop and threatening his life. While the businessman has been identified as Amar Singh, proprietor of My Tarpaulins on Devaraj Urs Road, the persons against whom he has lodged a complaint, has been identified as Lakshminarayan, Roopa, Kumar and Gururaj.

In his complaint, Amar Singh has stated that he had given the shop on lease to one Santosh and Lakshminarayan after receiving Rs. 10 lakh as the lease amount six years ago and Santosh had passed away sometime ago.

He has further stated that as the lease period expired, he had returned the lease amount last year, took possession of the shop and has been running the business. Palace illumination timings to be extended this Dasara

Over a lakh incandescent bulbs create an ethereal light extravaganza against the ink-black sky

Mysuru, Sept. 14 (RK&BCT)- It will be an audio-visual treat and a grand show of sound and light for tourists during Dasara cultural programmes at the backdrop of an illuminated Mysore Palace as the Dasara organisers have planned to invite stalwart artistes including Shubha Mudgal, Shobhana, Sudha Chandran, Pt. Rajeev Taranath and Vid. T.M. Krishna to perform from Sept. 21 to 28. And the icing on the cake is that the Palace will be illuminated till the end of the cultural performances.

Usually, the illumination of the Palace starts at 7 pm and lasts for 30 minutes. This year, however, the district administration, based on the feedback of Mysore Palace Board, has decided to extend the timings.

Palace Board Deputy Director T.S. Subramanya has sent a proposal to Deputy Commissioner D. Randeep, who is also the Executive Director of the Palace Board and Dasara Special Officer.

Speaking to *Star of Mysore,* DC Randeep said that the Palace illumination and the cultural programmes draw lakhs of visitors.

"We have observed that people who come to watch cultural programmes leave the venue as soon as the illumination stops. We want to avoid this and retain the audience so that they can soothe their senses with the rich cultural performances," he said.

The DC added that extending the illumination timings will add more glitter to the cultural programmes and would increase their value.

Sources said that this year, energy-efficient LED bulbs will be used instead of energy-consuming incandescent bulbs. "The hitch here is that LED bulbs only emit white light and it does not give the golden hue that enhances the beauty of the Palace," said Palace Board Deputy Director T.S. Subramanya. At present, over a lakh incandescent bulbs create an ethereal light extravaganza against the ink-black sky.

He said that before the decision on extending the illumination is made, talks will have to be held with the officials from Chamundeshwari Electricity Supply Company (CESC) to understand about the increase in electricity consumption.

Apart from Palace, the authorities have also planned to illuminate all the government buildings, circles and important landmarks in city.

Patriotism, martyrdom themes mark 2nd day of 'Yuva Sambhrama'

Mysuru, Sept. 14 (SBD& NNN)- The Gen-next's ideas, thoughts, actions, values and concerns are in the right place at the right time. This was in ample evidence on day two of 'Yuva Sambhrama' here yesterday, organised by the District Administration at Amphitheatre in Manasagangothri campus.

Students from different colleges set the magnificent stage, which was expanded during the centenary celebrations of University of Mysore, on fire with themes as diverse as women empowerment, patriotism, martyrdom, farmers' role, unity in diversity and the rich cultural tradition of the country through dance-drama.

Each dance number evoked all these emotions among the crowd gathered at the venue, which also reflected the celebration of youth.

The special and physically-challenged students of Nitya Nirantara Trust in Yeraganahalli brought alive on stage freedom fighters like Mahatma Gandhi, Subash Chandra Bose, Bhagat Singh, Sangolli Rayanna to the loud applause of the people gathered who gave them a standing ovation.

The students of Sri Viveka Vidya Samsthe in Srirampura turned the pages of history of Freedom Movement in the country by depicting Bhagat Singh, Rajguru and Sukhdev, who all fought for the freedom of the country and how all the three were hanged by the British through a dance-drama presentation. Adhyayana Composite PU College students displayed the courage of the soldiers, while fighting for the motherland and laying down their lives and how they fight with the terrorists and protect the Tricolour by snatching it from their hands. At the end of the dance as the students held the photos of the martyrs, the crowd had tears in their eyes as they all stood up paying their respect.

The role of farmers and their importance in nation-building was stressed by the students of Sri Adichunchangiri Composite PU College from Channarayapatna. Interestingly, they also depicted how the land sharks woo the farmers and buy lands from them at cheap prices and sell it to industrialists as the theme, thus creating awareness about this growing trend. They also sent a strong message through the dance that by destroying the trees and water resources, nothing can be achieved by just having money. Hence, they demanded that farmers must be protected, which appealed to the people so much that they welcomed the idea with whistles and claps.

More than 20 colleges participated in the events on the second day and each one of them with their pleasing costumes and dance choreographed by their teachers drew loud cheers.

Reshma Qureshi is a bold girl who survived the acid attack by her own brother-in-law a couple of years back. She is now the face of 'Make Love Not Scars.' She is also the face of many anti-acid-sale campaigns and has walked the ramp for many designers at both national and international platforms.

This year special stall will be setup where designer wear from top designers will be on display. It is going to be a couture parade where different designers including one of the oldest saree brands of Karnataka are going to showcase their collections.

"Each viewer will get 90 seconds to view the city through a binocular. CCTV cameras will be installed to film the operation. In addition, we will deploy a security guard," said DC Randeep.

On the fee to be levied for binocular viewing, the DC said that as of now, they have not fixed any prices. "The doors of the room where the binocular will be placed will open if a visitor inserts a coin. We will fix the price for viewing after seeing the response," he said.

GOPURA TO BE BEAUTIFIED

The ancient Gopura or Watch Tower (Gaali Mantapa) atop Chamundi Hill will be a new tourist attraction as it is being beautified at a cost of Rs. 45 lakh. Works are being taken up by the Public Works Department.

A beautiful park is being set up around the Gopura with green landscapes. The height of the boundary walls that surround the Gopura will be increased by 2 feet to ensure safety. Cement benches will be installed at the park for the visitors.

The works on the Gopura, however, will not be completed by Dasara and are likely to be completed early October. Here too, CCTV cameras will be installed and guards will be posted to prevent mischief mongers.

"There were 11 tender applicants and we have bagged the contract and we have been illuminating the place since the last seven years," they added.

Ex-MLC Madhusudan demands CBI probe against Prof. Rangappa

Madhusudan

Mysuru, Sept. 14 (RKB&NNN)-Former MLC G. Madhusudan has demanded a CBI enquiry against former Karnataka State Open University (KSOU) and University of Mysore Vice Chancellor Prof. K.S. Rangappa and another former KSOU Vice Chancellor Prof. M.G. Krishnan. He has alleged that Prof Rangappa is the kingpin of thousands of crores of rupees fraud in the KSOU and University of Mysore.

In a letter to HRD Minister Prakash Javadekar dated 14.9.2017, he has requested him to order a CBI enquiry against the former VCs for cheating 3.25 lakh students by way of disbursing unauthorised and unrecognised certificates of diploma, graduation and post-graduates certificates.

Addressing a press conference at Pathrakarthara Bhavan here this morning, Madhusudan alleged that the main person responsible for the mess in the KSOU was Prof. Rangappa as a result of which lakhs of students are suffering today.

Listing out the frauds committed by KSOU, he said that it had entered into academic collaboration and partnership with institutions outside jurisdiction of KSOU throughout the country and also in countries like Nepal, Sri Lanka, Dubai and USA.

He charged that all functions and duties of the University had been outsourced to a private firm by name Institute of Engineering and Management (IEM), Thane, Mumbai, where all marks cards and certificates were printed in the premises of KSOU in Mysuru.

IEM has another institution by name SCOPE, which has entered into an agreement with KSOU as academic collaborator for all the courses it offers. In spite of the interim report submitted by Justice K. Bhakthavatsala to the Governor wherein he has instructed KSOU not to continue the contract, the same agency continues with the fraud till date, he alleged. He charged that it was Prof. Rangappa who was responsible for all these irregularities.

When contacted, Prof. Rangappa refused to comment on Madhusudan's allegations.

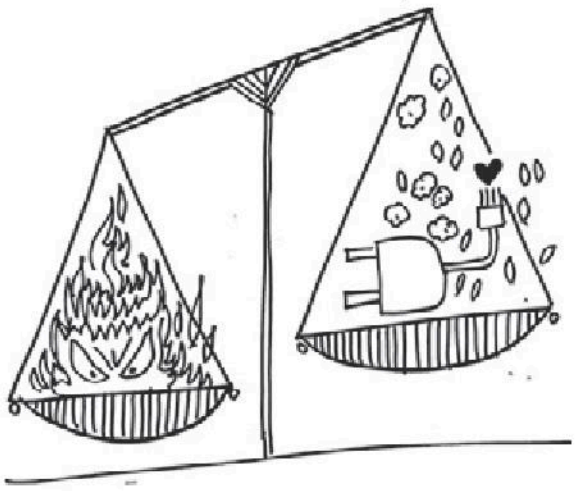
Decoding Mythology

Dr. Devdutt Pattanaik - Author, Speaker, Illustrator, Mythologist

Balancing the Love Charger

When you go to someone's house, we expect to be served water. But today, more than water, we expect to be offered a phone charger. So imagine when someone comes up with a phrase 'Love charger.' You cannot help but be impressed by the pop innovation. This was the name of a popular song written, composed and performed by Gurmeet Ram Rahim Singh ji Insan, infamous for his gaudy clothes that reflected his cocky narcissism.

In the song, the saint/guru/teacher/superhero/star refers to God as the love charger who is available every time, ready to fill you with confidence and energy. In the video you can see vast number of people enjoying their saint's performance. They feel charged, with love, for the Guru, and God.



Now, the courts have convicted the man who called himself MSG (The Messenger of God) for rape. It was not easy. While the ladies who accused him travelled 250-km each time they were summoned to court, the man accused was allowed video-conferencing facilities. The journalist who brought this case to light was murdered.

Can a man who inspires and empowers millions of people to live positive lives also be rapist? Are all good deeds wiped out by the bad? Must the good deed wipe out the bad? Public opinion and social media tend to be divided mostly along a clear binary: one that dehumanises the rapist (he is evil) and the other that dehumanises the victim/survivor (she is evil).

What matters for the insider clearly is different from what matters to the outsider. For the outsider, who is not a disciple, follower, fan, the Guru is a charlatan, a manipulator, a fraud. For the insider, the disciple, follower, fan, the Guru is perfect in every way and this is a conspiracy against him. In other words, there is no room for clear demarcations. It is this or that, never this and that.

This is not unique to India (though self-hating Indians would like to think so). The Catholic Church has a long history of shielding priests who indulged in pedophilia and rape. Without naming them, Dalai Lama has condemned the corruption of 'pop' lamas, after allegation of sexual abuse against many Tibetan Buddhist monks have been made in Europe and America. Islamic leaders in Indonesia and America have found themselves mired in sex scandals, which has been vociferously denied by followers, who insist this is part of an entrapment conspiracy. Even secular journalists and activists have been accused of being sexual predators by former colleagues. No Left/Right divide where rapists are concerned.

Few are able to handle that a good person can do a bad thing too. Just as it is possible for a bad person to do a good thing. We want to live in worlds of clear binaries where you are gagged from saying good things about the rapist and bad things about the rape victim/survivor. It stems from our yearning for perfection. We want people we place our trust in to be perfect. And when they turn out to be imperfect, as nasty in one context as they are delightful in many other contexts, we are heart-broken. In rage, we discard them, fearing their love charger will cause the battery of our soul to explode.

Seven-Day Yakshagana treat at Sri Krishnadhama

Mysuru, Sept.14 (US&YDS)- Ahead of Dasara cultural events, Mysureans can also treat themselves with a week-long yakshagana event at Sri Krishnadhama in Saraswathipuram here.

The show, aptly titled *'Sri Krishna Leelotsava'* organised by Bellipadi Yaksha Samskruthika Trust, was inaugurated by Yakshagana scholar G.S. Bhatta last evening with Sri Mahaganapathi Yakshagana Mandali of Nidle presenting episodes from *'Sri Krishna Janma Shakatasura Vadhe.'*

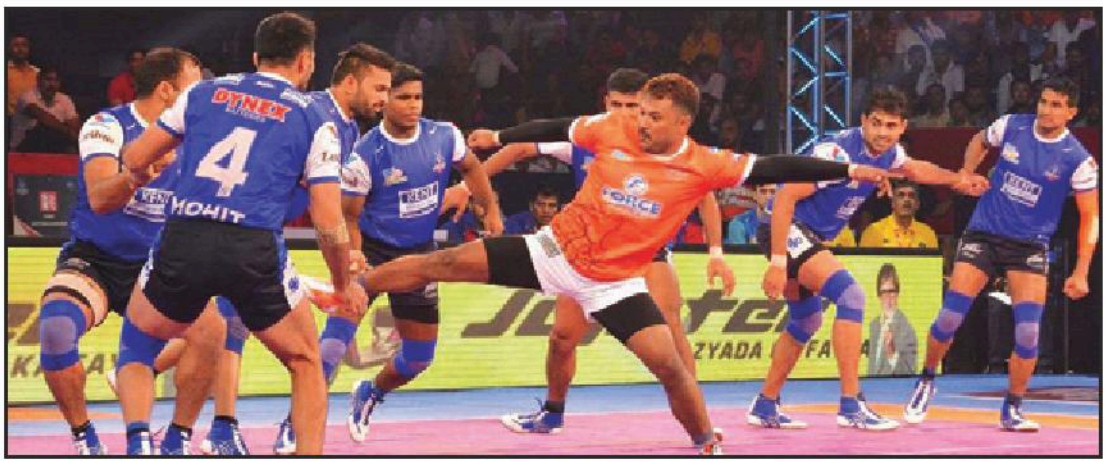
The artistes excellently portrayed the decision of Srihari to take up the eighth incarnation of Krishna born to Devaki and Vasudeva and the tactics of Kamsa to eliminate child Krishna.

Addressing the gathering, Trust President Dr. Bellipadi Satish Rai expressed his dedication to the art and concern for the trials and tribulations of yakshagana artistes as they have to perform all night on stage and move to another place the next morning to perform again. He appealed the public to extend co-operation to the artistes and encourage this unique art.

Writer Dr. Malali Vasanthakumar and others were present on the occasion.

Today's show at 6 pm features *'Kalingamardhana-Kamsavadhe.'*

Puneri Paltan crush Haryana Steelers



Sonepet, Sept. 14 - Puneri Paltan crushed hosts Haryana Steelers to register a mammoth 16-point win at the Motilal Nehru School of Sports in Sonepat, here yesterday. Captain Deepak Hooda was the star as he picked up his first Super 10 of the season to end with 13 points.

He was aided brilliantly by Sandeep Narwal (8 points). Deepak Kumar Dahiya's 11 points bore no fruit as the hosts suffered a 38-22 defeat.

A couple of toe touches set the score ticking for both the teams before Puneri Paltan unleashed their inner beast to rise from the ashes of their last-match defeat. From the fifth minute onwards, a series of do-or-die raids started with Pune not giving Haryana any room to score for almost 8 minutes. With Haryana's defence failing miserably and Pune going all out, the home team crashed to their first All-Out of the match in the 9th minute to give Pune an 11-1 lead. Until the 15th minute, Haryana had no tackle points to their name but arguably the best defensive unit in the league came back strongly to pull off two super tackles within two minutes to reduce the gap.

The home team entered the breather trailing 6-18. Haryana started the second half with intent with plans of sticking to their defensive prowess and attacking only in the do-or-die raids. This led to their inflicting two super tackles on Pune in the first five minutes of the half to narrow the gap to 8 points.

However, Hooda was in no mood to allow Haryana an effective comeback as he pulled off two consecutive two-point raids in do-or-die situations to put the home team into deeper waters.

Haryana soon succumbed to their second All-Out of the match in the 37th minute and appeared to have lost their steam as the score line read 31-19 in Pune's favour. Even after picking up his first Super 10 of the season, Hooda continued his annihilation and initiated a super raid in the dying seconds of the match to help his team win comfortably 38-22.

WORD OF THE DAY

Bibelot

Pronunciation: BEE-buh-loh

Meaning: A small household ornament or decorative object: trinket.

Origin: Can you think of a six-letter synonym of bibelot that starts with the letter "g"? No? How about an eight-letter one? Crossword puzzle whizzes might guess that the words we are thinking of are gewgaw and gimcrack. Like these, bibelot, which English speakers borrowed from French, has uses beyond wordplay. In addition to its general use as a synonym of trinket, it can refer specifically to a miniature book of elegant design (such as those made by Tiffany and Faberge). It also appears regularly in the names of things as diverse as restaurants and show dogs.

THE ODD WORD

Quadrupedation

Stamping with four feet.

PHRASE OF THE DAY

Hands Down

Meaning: Not difficult; easily.

Origin: The origins of this phrase are believed to be from horse racing. Here's why: During a race, the jockeys will have a firm grip on their horse's reins, which helps with controlling the speed and direction of the horse. Towards the end of a race, if one of the racers found themselves far ahead of the competition, it was no longer necessary to have such a tight grip on the reins, so the rider might choose to relax his hold and lower his hands, being confident that victory was only a few gallops away.

Thus, a rider winning 'hands down' meant the jockey's victory was pretty much a for sure thing. To go along with this thought, the earliest I could find of this phrase in writing is from the 19th century in several newspapers that used this expression in relation to horse racing. For example, in the Evening Herald, printed in London in 1861, there's a detailed summary of a recent race that was given, and there's a part from it that reads:

"Soon after rounding the turn into the straight, Marignan deprived Bannerdale of the lead, and won hands down by four lengths, half a length between the second and third."

Examples: I went to a fast food place in my area that had recently opened and placed an order. The cheeseburger I bit into was hands down one of the best tasting burgers I've had all month.

After trying several vacuum cleaners and not being impressed, I tried one that my friend recommended and it was hands down the greatest of the bunch.

QUOTE BOX

The future is not an inheritance; it is an opportunity and an obligation.
